

Vision Features At-A-Glance!

Engineered for the customer, the Gammill Vision™ machine is designed to appeal to both the novice and experienced quilter, integrating exciting new functions.

The features list below can be used to differentiate the Vision from other longarm machine brands.

- TOUCH SCREEN AND SOFTWARE:** Easy to use, full-color, LCD touch screen, same screen that is used on PlayStation® devices, so it's built tough! The software was custom designed by Gammill with the quilter in mind and BETA tested by quilters!
- ON-BOARD MEMORY SYSTEM:** The Vision saves your personal settings and is easy to update new features with the incorporated scan card!
- ADVANCED STITCH REGULATION TECHNOLOGY:** Designed to operate from 8 to 24 stitches per inch for better control at all speeds – and with a basting stitch too!
- COAST REGULATION:** Coast regulation allows you to stitch your heirloom quilting, small meandering and other small designs, in constant speed – then will automatically switch to the smooth regulated stitch when you increase your speed! you can modify this feature to suit your quilting style.
- STITCHING SPEED:** Stitches at an amazing 2,700 stitches per minute and quiet too!
- AVAILABLE DIGITAL CAMERA:** Worried about the stitches on the back of your quilt? With the Vision's Smart Technology – you are able to “see” the back of your quilt, and make those adjustments on the fly!
- BUILT-IN DIAGNOSTICS:** Check your switches, stitch regulation encoders, needle up and needle down sensors all from a single screen – you can even re-calibrate your stitch regulator! All for the purpose of making your quilting experience better. No other longarm machine brand has a diagnostic system like the Gammill Vision™!
- AUTOMATIC TIE-OFF:** Having trouble making your tie-off stitches look professional? Your wait is over with the Vision automatic tie-off system, it minimizes the size of the tie-off and makes it practically invisible – it's so easy!

We appreciate your comments!
